WHISPERS ON THE WIND

# WHISPERS ON THE WIND

## 10 in Edition

Covered in mud, agitated, sniffing the air, you fancy how. Seconds away from bolting or take on the, as yet, unseen challenge. If you know the Cape Buffalo then you know what this scene is all about. This is the largest sculpture I have ever attempted and the first of the edition resides in Germany with my very good friend Prince Albrecht Oettingen and his wonderful wife Angela. Angela has a love hate relationship with these beasts. Terrified of them, she cannot resist hunting them. The second of the edition is in the United States with Dennis Anderson, the Vice President of SCI.
